

Martek Power receives ISO14001 certification in France

Martek Power, a world leader in the design and manufacture of power supplies and converters is pleased to announce the recent ISO 14001 certification of its French factory in Montrottier, near Lyon. As an ISO 14001 certified business, Martek Power has committed itself to environmentally responsible business systems and processes.

The ISO 14001 certification is a voluntary, internationally recognized standard that facilitates improved environmental business management through an external auditing process. ISO 14001 certified businesses have demonstrated a commitment to developing and implementing an environmental management system in their core business processes.

As part of the efforts to achieve this well-recognized certification, Martek Power has established its own Environmental Management System to ensure that the Company's activities, products and services have minimal impact on the environment.

"Martek Power is a company devoted to the environment and sustainability. With this philosophy and adhering to high-performance standards, such as the ISO standards, we are continuously improving our environmental assurance and performance in all business activities to have the least impact on our environment." said Marcel KATZ, Group Chief Executive Officer.

Martek Power was already ISO9001, EN9100 and ISO TS 16949 certified. With this new certificate, Martek Power is now one of the leading companies in Europe concerning quality and environment commitment.

About Martek Power

Martek Power is a world leader in the design and manufacture of standard, modified-standard, and custom power supplies and converters. With design and manufacturing centers in Europe, North America, North Africa, and Asia, and now Mainland China, Martek Power is uniquely qualified to satisfy customers in worldwide markets with local technical and customer service support. The company has over 45 years' experience supporting OEMs to engage in medical, networking, telecom, data storage, transportation, computing, aerospace, military, instrumentation, and other industrial applications.
