

Fangyuan Electronics Extends Martek Power's Sales Network to Mainland China

Martek Power brings its high-capacity power supply and power conversion product line to mainland China in a representative agreement with electronics distributor Fangyuan Electronics Co., Ltd. This "natural alliance" aims to meet the Chinese market's demand for ruggedized power supplies and power conversion products.

Torrance, Calif., Sept 2009 – Martek Power, a leading manufacturer of power supplies and power conversion solutions worldwide, announced a new representative agreement with Fangyuan Electronics Co., Ltd., of mainland China. Fangyuan Electronics is now responsible for selling Martek Power's railway, automotive, aerospace, and defense-grade power supplies, as well as power consulting services, into the Chinese territories.

With 200 sales professionals worldwide, Fangyuan Electronics has been a highly successful distributor of electronic components since its establishment in 1994.

The demand for ruggedized power supplies and power conversion products in the mainland China market is expanding rapidly. Fangyuan Electronics - headquartered in Xi'an and with branches and representative offices in Beijing, Shenzhen, and Hong Kong - has the established network and expertise necessary to position Martek Power's products successfully in this marketplace. "This alliance is a natural one for Martek Power, and we are confident that together we can offer a complete power conversion solution for the Chinese market," says Martek Power's Director of Sales and Marketing Fred Lewis.

About Martek Power

Martek Power is a world leader in the design and manufacture of standard, modified-standard, and custom power supplies and converters. With design and manufacturing centers in Europe, North America, North Africa, and Asia, and now Mainland China, Martek Power is uniquely qualified to satisfy customers in worldwide markets with local technical and customer service support. The company has over 40 years' experience supporting OEMs to engage in medical, networking, telecom, data storage, transportation, computing, aerospace, military, instrumentation, and other industrial applications. They also own two major global providers of test and measurement equipment and calibration and maintenance services - Sefelec in Germany and Semelec in France.
